- 2. The following is an examiner's statement of reasons for allowance:

The closest prior art of Ginter (U. S. Patent 5,892,900) teaches using virtual distribution environment (VDE) to secure distributing right protected digital contents.

In regarding to independent claims 38 and 44, Ginter taken either individually or in combination with other prior art of record fails to teach or suggest a user receives and stores an encrypted content upon the request; after storing the encrypted content, the user requests for a content key and a use condition to an administration center when the user wishes to reproduce the stored encrypted content; transmitting the encrypted content to the portable reproduction apparatus for reproduction; encrypting the content key and the use condition with a session key shared with the portable reproduction apparatus; and transmitting the content key and the use condition with a session key to the portable reproduction apparatus.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
